CLEANING INSTRUCTIONS

Before cleaning, lighting fixtures must
 be turned off and unplugged from mains
 electricity. Whilst cleaning please take care
 and use the gloves provided.

Black patinated: Use a dry soft dust cloth
 and gently go over marks until clean. The
 brass patina is achieved through an artisanal
 technique of applying pigments by hand
 during a hot patination process. Through this
 alchemic process, the brass is transformed
 whilst retaining the material's inherent
 qualities. It will mature and change overtime.
 The manner and speed in which it will change
 will depend on the environment, handling
 and the level and frequency of maintenance.
 Verdigris can also appear when the copper in
 the brass begins to oxidise.

Opaline Glass: Remove the opaline glass from
 the product. Using a lightly damp cloth, clean
 only the outside of the sphere. Only put the
 glass sphere back on the product once it is
 fully dry.
