Wire Management

Aluminum power box integrated into the surface of the table with hinged lid. Available for all models of the Ratio Conference Table collection. It is offered in two different sizes and power/data ports can be customized according to the following diagram:

1 Location of the power box

By standard, the power/data box would be offset relative to the base. For tables with more than one power box, these will be separated 1/3 between them and placed horizontally.

2 Wiring management

The cable passes through an aluminum wire manager, keeping it hidden from the users.

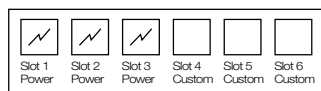

3 Wiring exit

The cable exits directly the power system or through an aluminum frame so that it remains hidden until it reaches the floor.

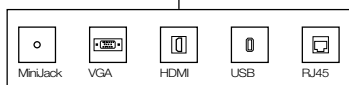

PS 0752

PS 0753

Choose data port type for customizable slots

Optional preinstalled wiring IN 0006

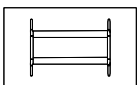

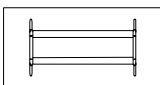

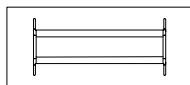

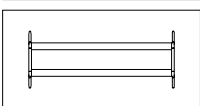

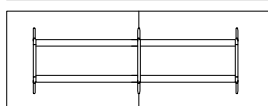

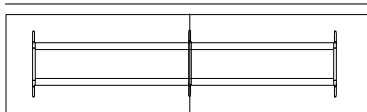

Pre-installed wiring consists of the necessary mechanisms to integrate power systems in the table so that cabling is concealed until it exits at the bottom of the table. Included in package are the grommet and 3m cable (for the power box). For additional cable dimensions, contact the Customer Service Department.

Height 29.25 in.
745 mm.

Table top finishes in oak, lacquered, laminate, laminate TP, glass, linoleum, ultra-matte and ultra-matte TP.
Available in two profile types: straight edge and bevel edge.
