

ROMB 36 TABLE —
BY BROBERG & RIDDERSTRÅLE 2021

#207 313 #207 318

Romb – an intriguing personality. Simple at a distance. Artistic up close. Geometric cleverness inspired by rippled cardboard. A decorative presence, discreetly loud. A silent rebel. Cockiness. Well-behaved. On a windowsill. On a bookshelf. Close to Kerouac. Fitting in. A classic.

ABOUT

Romb emerged as a result of Broberg & Ridderstråle experimenting with a rippled cardboard they use lots when modelling and developing architecture projects. The shape, a rhombus, emerged quickly and split into two forms; one larger than the other, which cast an interesting direct light upwards but also indirect down, over the base of the shape. The piece works well on narrow spaces like bookshelves or windowsills, and has a strong sculptural presence whether it's shining or not. Romb is made from custom-pressed steel with seamless edges and great attention to detail.
